FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Terrance M. O'Reilly, Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director. A subsequent appeal was dismissed by the Associate Commissioner for Examinations. Counsel has now filed a second appeal. In the interest of due process, the case will be considered on certification pursuant to 8 C.F.R. 103.4. The previous decisions of the director and the Associate Commissioner will be affirmed.

The petitioner is a firm which designs, develops, and installs instrumentation, controls, and monitoring systems. It seeks to employ the beneficiary as a project engineer for an additional 18 months. The director determined that the petitioner had not submitted, in a timely manner, a certification from the Secretary of Labor that a labor condition application had been filed.

Counsel now argues that failure to submit the labor condition application in a timely manner was due to circumstances beyond its control. Counsel has now provided a certified labor condition application.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of labor that the petitioner has filed a labor condition application with the Secretary,

2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

Although the petitioner was required by regulation and requested by the director to provide a certification from the Department of Labor that a labor condition application had been filed, that document was not initially submitted.

The petitioner has now provided a certified labor condition application. Nevertheless, that application was certified on September 16, 1998, a date subsequent to October 29, 1997, the filing date of the visa petition. Regulations at 8 C.F.R. 214.2(h)(4)(i)(B)(1) provide that before filing a petition for H-1B classification in a specialty occupation, the petitioner shall obtain a certification from the Department of Labor that it has filed a labor condition application. Since this has not occurred, it is concluded that the petition may not be approved.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director and the Associate Commissioner will not be disturbed.

ORDER: The order of June 25, 1998 dismissing this appeal is affirmed.
